

we're hiring! Fullstack JS-Developers

At fiskaly we're developing a unified fiscalization API to the austrian and german market with a strong vision to become the #1 API-provider for all of europe!

To conquer this big mission - we need YOU!

You have / You are / You want:

- an open, friendly personality - we value team-fit on the very top!
- on the top-quartile of tech-skills within your class / network ...
- at least a bit experienced with NodeJS, React, PostgreSQL, git, agile development, Docker ... [see stackshare](#)
- a self-learning hero (*still able to ask relevant question*)
- career-opportunities - grow with us!
- home-office, flexible working hours, awesome colleagues ...
- part-time / full-time / bachelor- or master-thesis opportunity ... we can adopt to your situation

you're matching 3 or more, shoot us a mail
