

# (Senior) GO Developer

[Apply Now!](#)

📍 Vienna, Austria

## Who we are

We are an innovative and international team that is striving to bring seamless fiscalization to everyone. We are doing that by implementing a unified API, which currently solves the needs of the Austrian and German markets for PoS compliance. Still, our vision is to become the #1 fiscalization API provider for the whole of Europe!

## What you'll be working on if you join

- You'll be part of one of our teams formed out of 3 to 5 people, with an end2end delivery responsibility. We achieve this by having a Continuous Everything approach (GitOps).
- You'll be working on our certified distributed server-side software solution for fiscalization (currently only in Germany)
- You'll be working, as well, on our client-side software solution to provide a unified interface for all our services
- You'll have the chance to take care of the development, deployment, and monitoring of the software you and the team will create
- You'll also create the documentation needed for internal and regulatory purposes
- Last but not least, you'll get the chance to shape how the future of our solutions will look like

## You will be a fit for our team if

- You have completed studies, training, or certifications in the IT or computer science field
- You are familiar with Agile development methodologies
- You have at least **5 years** of experience in software development
- You have deep knowledge of the **Go** programming language and style
- You have experience with modern software engineering practices and methodologies such as CI / CD, design patterns
- You have experience with Linux based systems and some understanding of their internal workings
- You have an interest in developing certified software solutions for high-reliability services
- You have a solution-oriented way of thinking
- You can communicate ideas and concepts to non-technical colleagues
- You have team spirit and the ability to work in a team
- You have an EU work permit
- You are fluent in **English** (level **B2** or higher)
