

+ DU BLEIBST DU – DENN SO WOLLEN WIR DICH +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That’s because we see ourselves as the **“Digital Transformation Engine”**. And how do we succeed in this mission? It’s simple. We are a family of facilitators with innovative ideas. We’re capable of, want to, and allowed to make things happen. That’s what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

SOFTWARE ENGINEER (M/W/D) – CLOUD SERVICES (JAVA)

Klagenfurt, Vienna, Graz, Karlsruhe, Cologne, Remote | full time

Are you driven by passion for and a keen interest in innovative technology and cloud services? Are you a dedicated person who enjoys working independently and is highly quality-conscious? If so, you are the right person for this position, in which you will have the opportunity to actively help shape Anexia Services and be involved in the development of new features and technologies that offer our customers genuine added value.

#PROFILE

As Software Engineer – Cloud Services you will focus on the development and provision of **secure services with a high level of availability** in the Anexia Cloud ecosystem. Your work will focus on the area of our **KVM virtualization**. You will be responsible for both public and internal web applications on the basis of **Java and Hibernate**. You will thus make a major contribution to ensuring that more than 50,000 virtual machines can be controlled. You will therefore help to drive forward the development of the availability of our KVM solution on our more than 90 PoPs worldwide, as well as the installation of technical updates for the virtualization stack. **We work in a dispersed and agile manner**, relying on individual responsibility and ensuring the quality of our services through sophisticated CI pipelines, automated testing and peer reviews. Your input in the form of ideas and approaches for efficient and clean solving of even complex problems will contribute to our shared success and be of key importance in tackling the challenging and multi-

faceted tasks we are confronted with.

#WANTED

- Completed technical education (HTL, FH, TU) or relevant professional experience
- Very good knowledge of Java
- Basic understanding of Python and/or Go is an advantage
- Experience with Linux, as well as an understanding of the interaction between networks, operating systems, and software
- Skilled in the use of relational databases (MySQL, MSSQL, PostgreSQL, etc.)
- Knowledge in the use of automation tools is an advantage (Ansible)
- Ability to work independently and reliably, a strong customer and service focus, and a high level of quality awareness
- Systematic and analytical mind, as well as a high level of motivation for learning new technologies
- Very good knowledge of English, (knowledge of German is an advantage)

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

min. 46.000€

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
