

How would you like to work at a cutting-edge software company that places you at the forefront of technical innovation and puts your well-honed skills center stage?

Beyond Now is an international leading ecosystem orchestration and digital platform provider, powering organizations to launch new services at speed and grow revenue in an era of cloud, IoT, AI and 5G by utilizing our digital platform and SaaS BSS. We're building our team with the best people, and that's where you come in.

Cloud Innovation Engineer (m/f/x)

Premstätten | Full-time | Immediate Start

What you'll be doing:

- You'll ride on top of the technology trend wave by designing new strategies and driving innovation in our cloud infrastructure (currently based on AWS and GCS).
- Your focus will be on the development/improvement of creative, future-oriented, and scalable cloud infrastructure solutions by applying state-of-the-art technologies.
- You'll continuously improve our automated CI/CD process.
- You'll work in a highly motivated team of technology enthusiasts who embrace innovation and change.
- You'll share your knowledge within the team.

What you bring to the role:

- Completed IT education (HTL, Uni/FH) or comparable qualifications
- Min. 5 years of working experience in relevant technologies
- Excellent knowledge of and experience in cloud native technologies like Docker, Kubernetes and Terraform
- Excellent overview/understanding of current trends in cloud technologies and services
- Willingness to experiment with new technologies and break new ground
- Knowledge or experience in Java and/or Linux
- Convincing team player with the ambition to drive innovation and contribute ideas
- Communication skills in English (verbal and written) necessary, German would be an asset
