

Grow your Career with us

You apply a critical eye and attention to detail to everything you do? Then this role is just right for you!

Beyond Now is an international leading ecosystem orchestration and digital platform provider, powering organizations to launch new services at speed and grow revenue in an era of cloud, IoT, AI and 5G by utilizing our digital platform and SaaS BSS. We're building our team with the best people, and that's where you come in.

Quality Engineer (m/f/x)

Premstätten | Full-time or Part-time | Immediate Start

What you'll be doing:

- You will be in charge of defining the testing strategy/scenarios for each sprint with the development team based on risk (e.g., You define what will be automated versus what will be tested manually)
- You will perform scenario-based testing on item level
- You will perform explorative testing
- You will align the release of defect fixes with internal stakeholders and clients

What you bring to the role:

- Completed IT education or professional experience in software testing
- Experience with or an interest in technologies like REST, XML, SQL
- Communication skills in English (verbal and written). German would be an asset.
- You follow a structured and holistic approach
- You are a fast learner
- You are an excellent and proactive communicator
